MARKET OPPORTUNITY:

Chile has embarked on an ambitious \$1.4 billion Airport Modernization Plan, with the stated goal of doubling terminal capacity at 17 airports throughout the country over the next 20 years. Part of the master plan includes constructing a second international airport in Santiago by 2030 when passenger traffic at the current airport exceeds its design capacity.

FEATURED CHILEAN GUEST:

The California delegation will be met by **Juan Squella, Logistics Director, General Directorate of Civil Aviation (DGAC)**. The DGAC is the civil aviation authority of Chile. Additional Chilean participants from local MRO service providers, low-cost carriers, and others involved in the civil aviation sector will also join.

CHILEAN DGAC IMMEDIATE PRIORITIES INCLUDE:

- ✓ Acquisition MLAT - ADS-B (air surveillance system):
- ✓ ARFF vehicles procurement
- ✓ Cargo MRx scanners
- ✓ DVOR /DME radio aid systems replacement plan for Curico
- ✓ Radar UPS stations
- ✓ Radio linkage for national communications (MMOO)
- ✓ Switchgears for communications – national plan
- ✓ Telephone center equipment
- ✓ VHF-AM communication systems
- ✓ X-Ray scanner for carry-on luggage
- ✓ X-Ray scanner for large luggage
- ✓ Energy distribution systems
- ✓ HF equipment
- ✓ ILS 17R AMB airport upgrade
- ✓ ILS replacement (Air Navigation Systems)
- ✓ Measurement instruments
- ✓ Primary and secondary surveillance systems
- ✓ Radar stations energy transmission systems
- ✓ Recording apparatus
- ✓ Visual aids equipment

This opportunity is funded in part through a grant with the U.S. Small Business Administration
