Before you start requesting the quarantine exemption approval...

Under this difficult circumstance as we need to follow the COVID-19 restrictions, Seoul ADEX Office does our best for the foreign exhibitors who participate in Seoul ADEX 2021 to get an approval of the quarantine exemption.

However, unfortunately, we cannot guarantee the review result, even though we are closely working with the approving ministry (DAPA).

In addition, due to unpredictable local situations, the guideline may be applied to each country differently and the exact date of certificate issuance is hardly known. As we know, the government guidance can be changed due to circumstance.

If we have any updated news on the quarantine exemption approval process, we will send you the notice as soon as we can. Please feel free to contact us if you have further inquiries.
