MILIPOL QATAR 2022

Unprecedented results

Milipol Qatar is a key feature on the security market calendar in the Middle East. The official generous patronage comes out of HH's constant desire to support all activities and initiatives that target the promotion of Qatar in all fields, as well as the implementation of "Qatar National Vision 2030". The next edition of Milipol Qatar will be held from 29 to 31 October 2024, and will be the perfect platform for buyers and all homeland security stakeholders from public and private sectors, to conduct business and showcase innovation.

Major General Nasser Bin Fahad Al Thani
Milipol Qatar Committee Chairman

Total deal's value between exhibitors and the Ministry of Interior of Qatar is **592 million** Qatari Riyals!

389 Official delegates

Opening ceremony by Qatar's Prime Minister and Minister of Interior.

Seminar Programme

+500 Attendees

30 Speakers

Cyber Security & Cyberthreats

Large Events Security Management

MILIPOL QATAR,

Display your wares and expertise

Qatar's investment in safe and secure major events plays a key role: **Middle East homeland security market growths by 14.5% currently**, according to **Market Watch**. The **Middle East & Africa cybersecurity market presents a forecasted Modor Intelligence value of \$2893.40 million by 2026**.

Qatar's sporting ambitions are expanding. The FIFA World Cup, known as the most prestigious tournament in the world, was held in 2022 in Qatar with **flawless security and logistics**.

Thanks to the security efforts of **Tournament Security Force and the Ministry of Interior**, this was the safest version of the World Cup as best practices in security and safety measures for the masses were applied. The **latest communication systems** between all units, through the operations rooms in the tournament facilities

and fan areas linked to the Tournament Command Center on the one hand, and the Central Operations Room of the National Command Center on the other, were used.

Most of the exhibitors at Milipol Qatar were among the companies selected to supply equipment and services for the World Cup.

2030 Asian Games and hopefully 2032 Olympic Games are on the horizon and are key to the economic development aims of **Qatar Vision 2030**.

Across the Middle East, the move towards **smart cities** increases demand for solutions, including **artificial intelligence technology**, to be integrated into infrastructure, transport, space, and cyber networks.

Qatar prioritizes safety and security and backs its commitment with **significant budgets**.

The perfect platform for buyers and all homeland security stakeholders:
