ABOUT SPE OFFSHORE EUROPE

SPE Offshore Europe helps the offshore energy value chain to accelerate the transition to a better energy future by uniting the power of expertise, knowledge and innovative technology to drive progress. Our mission is to create a space for collaboration and learning in order to drive the sector forward, bringing together the entire offshore energy value chain for four days in **September 2025 at P&J Live, Aberdeen.**

The oil, gas and renewable energy worlds are converging and success belongs to those best placed to leap on every opportunity in a world of energy transition. exhibition and SPE produced conference, which delivers local and international business directly to you.

SPE Offshore Europe is the event to showcase new technologies and services to the entire offshore energy value chain, providing a single platform for proactive companies to showcase their best solutions to meet these evolving energy needs.

Join the industry leaders to share ideas, expand your influence and make connections that matter whilst gaining the knowledge and skills through our live and online content to keep your business competitive and progressive.

ABERDEEN, THE ENERGY CAPITAL OF EUROPE

As the energy capital of Europe, as well as a key production hub, Aberdeen has cemented itself firmly on the map as a leading centre of R&D for subsea technology and expertise. Setting the global standards for the industry. Production and operations, technologies and techniques developed in Aberdeen are used in oil and gas fields all over the world.

SPE CONFERENCE

SECURING SUSTAINABLE AND EQUITABLE ENERGY FOR THE NEXT 50 YEARS AND BEYOND

Energy Security

Energy Transition

Future Talent

Innovative Technology

Our 2023 conference theme **“Securing sustainable and equitable energy for the next 50 years and beyond”** tied closely with our four key themes of Energy Security, Energy Transition, Innovative Technology and Future Talent.

Created by a specialist committee of industry thought leaders, including peer-reviewed technical abstracts, the conference is truly “by the industry, for the industry”.

That’s why this is the leading offshore energy event in Europe, as well as being the largest free-to-attend conference dedicated to the offshore energy community.

SPE Offshore Europe is a unique platform to showcase the latest technical views and developments within the industry. With the overarching theme of “Accelerating the transition to a better energy future”, the event aims to deliver a contemporary yet balanced technical programme, covering new areas of interest as well as making time for more long-established topics. We anticipate exciting discussion and debate as the industry steps up to the energy transition challenge.

Kamel Ben-Naceur
2022 SPE President, Chair and CEO, Nomadia Energy Consulting

PARTNERSHIP WITH SPE

Our conference is known as a source of high-quality independent content, delivered by the industry’s leading voices and backed by The Society of Petroleum Engineers (SPE). No other event offers the industry this level of commercial, strategic and technical learning free of charge.

The Society of Petroleum Engineers (SPE) is a not-for-profit professional association whose more than 140,600 members in 144 countries are engaged in oil and gas exploration and production. SPE is a key resource for technical knowledge providing opportunities to exchange information at in-person and online events and training courses, publications, and other resources.

2023 CONFERENCE SPEAKERS INCLUDED...

THE RT HON GRAHAM STUART
Minister of State for Energy Security & Net Zero in the Department for Energy Security & Net Zero

VP Blue Hydrogen, bp

THEMED FEATURED AREA

ENERGY TRANSITION ZONE

Our dedicated Energy Transition Zone. Features key exhibitors and industry stakeholders who shared their plans and aspirations for achieving our net zero goals.

ENERGY TRANSITION THEATRE

The Energy Transition Theatre showcases cutting-edge presentations from operators, service companies and industry stakeholders, touching on all aspects of energy transition.

FUTURE OPPORTUNITIES THEATRE

The future Opportunities Theatre offered a decommissioning and late-life focus but also embraced broader underwater technology, robotics and automation, offshore renewables, industrial decarbonisation/CCUS, hydrogen, subsea and mechanical engineering.

FUTURE TALENT HUB

Creating a net zero energy future will take new skills, new talent and new approaches. This important new feature in 2023 was supported by and involving key industry stakeholders, including AREG, X-Academy, OPITO, SOWEC and more.

THE HYDROGEN HUB

The Hydrogen Hub, showcases hydrogen technology including Energy Storage, Infrastructure, Heat, Supply Chain, Partnerships, Production, hydrogen refuelling containers, hydrogen-powered vehicles and fuel-cells, while the theatre explored real life projects presented by industry leading experts.

INNOVATIVE TECHNOLOGY / DIGITAL ZONE

The Innovative Technology/Digital Zone, acts as a space to learn what's new and upcoming in the industry, exploring the key themes of innovation, technology, future talent, health and safety and more.

OFFSHORE WIND THEATRE

Discussions on the role of offshore wind within the changing energy landscape takes place in the Offshore Wind Theatre. Topics ranging from Floating Offshore Wind to Supply Chain and Operations & Maintenance to be covered by industry experts.

TOWARDS NET ZERO TRAIL

Our brand new trail for 2023 highlighted organisations across the full event with a relevant solution to accelerate the transition to net zero. Visitors were able to access relevant information by scanning the QR codes on highlighted stands

BOOK YOUR SPACE TODAY

SPACE ONLY

Only the floor space is provided, giving you the flexibility to build your own stand. You are responsible for the design and construction of the stand using contractors of your own choice within the Rules and Regulations of the event.

SHELL SCHEME

A ready-made shop window to your brand. Includes (per each 9m² space, 2.5m high shell scheme walls, fascia name board, carpet. Plus table and chairs, spotlights and a power socket.

SMARTSPACE
